THE TOWN PUMP

Mirror is now able to boast of the proverbial town pump. The milkman's friend is situated in the centre of the town, at the junction of Lois avenue and Lake street, and on account of the town being dry (at present) it is certain to well patronized by the thirsty ones. If you happen to receive a wink and a nod you can bet it's the town pump for yours; still it might be used as a chase, and in that case we're only a block and a half from the Spring.

The well is seventy-three feet deep. Sixteen feet below the surface the drillers struck quicksand; on drilling through this, an eight foot clay bed was passed, then into a fine bed of sand and gravel twenty-four feet in depth. A five inch casing runs the full length of the well, and water rises to within twelve feet of the surface. The water is excellent and the supply seems to be inexhaustible.

SOUTH BUFFALO LAKE

A nice fall of snow last night. Mrs. Olive Estell came from Boise, Idaho, last Monday, and will make her home with her son, G. J. Estell.

Our enterprising neighbor, Robert Kerr, loaded and shipped a car of wheat from Nevins last week.

Miss Pearl Sorum, who has been visiting her aunt, Mrs. Johnson, in Calgary, returned on Saturday. She was well pleased with the city.

Nevis turkey shoot was well attended by the South Buffalo Lake boys.

Quite a number of our people visited Alix on Friday night. South Buffalo Lake, Dec. 9th.

CAIRNS—SIMPSON

A very pretty home wedding took place at the residence of Mr. and Mrs. J. C. Simpson, 3 miles North of Mirror, on Monday afternoon, Dec. 11th, when their eldest daughter, Miss Mabel, was united in marriage to Mr. Jas. Cairns. The bride who was given away by her father was handsomely dressed in white silk, and carried a bouquet of roses and lily of the valley. The ceremony was performed by the Rev. Mr. White, of Lacombe, in the presence of over eighty guests, after which a sumptuous dinner was served. The groom's gift to the bride was a gold watch and chain. The wedding gifts comprising silverware, china and cut glass were numerous and handsome, testifying to the high esteem in which the contracting parties are held by their many friends. The happy couple will take up their residence for several months at the home of the groom's father, as the latter gentleman will spend the winter in Prince Edward Island. A host of friends join with THE JOURNAL in wishing Mr. and Mrs. Cairns a prosperous and happy journey through life.

PULL TOGETHER

Dissemination in a town makes the grass grow in the streets; unity makes the trade grow in the stores. Other things being equal, a town is usually as big as the faith of its people. If they believe in it enough to sink all differences and pull together you can bet dollars to doughnuts that town is on the up grade. When the merchants unite for the good of their burg it is a safe gamble the home trade will come to them. It is better to have the long green in the till than the grass green in the streets. Unity makes the long green grow. The town that does not pull together will be pulled to pieces.

NEW OFFICE FOR MANITOBA GRAIN GROWERS

The executive of the Manitoba Grain Growers' Association held a full meeting in Winnipeg. For some time back the association have been considering the advisability of opening a central office from which to direct the work of organizing the farmers.

The secretary was instructed at the meeting to at once secure an office in Winnipeg with the necessary staff to conduct a vigorous campaign of education and organization. The very unsatisfactory situation with reference to the marketing of this year's crop, in the judgment of the directors, presents adequate reasons why the farmers should get closer together for the advancement of their own interests and to organize for protection against the encroachments of the special interests.

G. T. P. HOTEL FOR EDMONTON

D'Arcy Tate, K. C., solicitor for the G. T. P., is authority for the statement that it is the intention of the railroad company to proceed at the earliest possible moment with the construction of the big hotel on the site they have obtained at the southern extremity of Mc Dougall avenue, Edmonton.

In speaking of the delay which was apparent in the commencement of the construction, Mr. Tate said that any present delay would be made up once the work was begun by working with all possible speed, and that it was the intention of those responsible to have the building ready for occupancy by the end of May, 1914. Some rumors seem to have gained ground that there were legal obstructions to the building of the hotel. These Mr. Tate said were groundless, and the only movements waited for from the legislature were the absolute ratification of the title to the

property and the exact definition of the clause relating to the exemption from taxes.

This latter, Mr. Tate pointed out, was rather a nice point. Exemption from taxes is to be granted to certain institutions and the question now arises as to whether or not a hotel on the plan of the building to be erected by the G. T. P. is or is not an industrial institution within the meaning of the act.

The G. T. P. are giving the hotel they are to build the precedence over those they are to build in any other points in the west of Canada.

MIXED FARMING PAYS.

While this corner of the province has been fortunate in having large yields of grain this year, the fact still remains that the man who goes in for mixed farming is, and always will be on the top. Grain farming alone is gambling against heavy odds, while the man who goes in for cattle, hogs and sheep has a sure thing. A few broad strokes in the farm is also a paying investment. Some figures recently issued from Ottawa are interesting in connection with the campaign the Commercial has been carrying on in favor of mixed farming. The report of the census and statistic department shows that the total value of the potatoes, roots, fodder, crop, hay and clover in all Canada this year is \$219,055,000. In this amount potatoes, sugar beets, turnips and other roots reach the total value of \$59,900,000. It is noticed, however, that the west has not yet gone into the raising of these products very extensively, but far enough to indicate that such crops would be very profitable here. The value of all root and fodder crops in Manitoba is placed at only \$5,583,000; in Saskatchewan, \$3,790,000; in Alberta, \$6,321,000.

In a small province of Prince Edward Island the amount is \$5,674,000, while in Ontario it is given as \$9,468,000. What a great opportunity the western provinces have in this connection! What a great thing it would be to have a crop of vegetables, fodder, etc., in these provinces worth \$100,000,000 in a year when some damage might be experienced in the grain crop. Mixed farming will pay out yet in the west, and the result will be a more satisfactory yield from the soil year in and year out.

GREAT VALUE

We are now in a position to make the following offer: The Family Herald and Weekly Star of Montreal; the beautiful pictorial entitled "Home Again," size 22x29, all ready for framing; and THE MIRROR JOURNAL, all three for \$1.75. The Family Herald and Weekly Star of Montreal is one of the best weekly papers in the world today; a newspaper magazine and agricultural journal combined. No home should be without it. The picture "Home Again" is one of the best pictures ever offered newspaper readers. It is simply marvelous how such a picture can be included with a paper like The Family Herald and Weekly Star at so small a price. Subscriptions for the three taken at this office. Now is the time to subscribe.

Two farmers were not long since discussing their local paper. One thought it had too many advertisements in it. The other replied: "In my opinion the advertisements are far from being the least valuable part of it. I look them over carefully and save at least five times the cost of the paper each week through the business ad-

vantages I get from them." Said the other: "I believe you are right—I know that they pay me well and rather think that it is not good taste to find out what the advertisements are after." The men have the right idea of the matter. It says any man with a family to take a good local paper for the sake of the advertisements if nothing more. And if business men fail to give farmers a chance to read advertisements in the local paper, they are blind to their own interests, to say the least of it. "You never

trade with me," said a business man to a prosperous farmer. "You have never invited me to your place of business and I never go where I am not invited. I might not be welcome," was his reply.

That Reminds Me

"The church is jammed," said the Lord preserve us! "Pedestrians—stop! You just missed me by an inch,"—Chapman. "Be patient. I'm coming back directly."

It is true that it costs you more to live now than it cost your great-grandfather, but it wouldn't cost as much if you lived as he did.

Citizen—"I suppose your little ones eat you many embarrassing questions?" Chapman. "I suppose they eat your mother."

Motorman—"What do you think is the most difficult thing for a beginner to learn about an automobile?" Frank. "How to get out of talking about it all the time."

Pedophile—"Why do you sigh?" Peacock—"Because I can't see the back of my dress. They say it is beautiful."

"Yes, my friend, I was about to make a speech, but I was interrupted by a woman who spent more than a thousand a year on her dresser."

Frank—"I'm going to stop talking about it all the time."

"Why, I married the dressermaker."

"You refuse—allow your son to study spelling and grammar?" said the teacher. "Absolutely," replied Mr. Groucho. "I want him to try his best at grammar, but I don't propose to spoil his dialect and slang."

Racehorse Owner—"William, you are too honest. Can't you take something off?"

Owner—"I'm wearing my lightest suit and haven't tasted food all day."

"Owner—"Thus, for god's sake, go and get shaved!"

"You say you charge extra for sum sum borders we are trying to reduce?"

"Yes," replied Farmer Cartoos.

"I have to. They always develop the biggest appetites."

The Lady—"What do you want, little boy?"

The Kid—"Could you pull off a fight between 'Butch' Riley and 'Punch' Shultz down in your cellar, and when you're through, tell me what all right?"

"I'm afraid I can't do it to the police's interference."

An aged colored man was engaged in burning the grass of the lawn of a young broker when the latter returned from a walk and asked him to join him for a cup of tea.

Second Boy—"My father drives every day, too."

"I don't believe it! What does he drive?"

Second Boy—"A 'dime,'"

"Mamma, can you change five cents for me?" asked the innocent little Girl.

"How do you wish it changed?"

"Into a dime," was the ingenuous response.

First Boy—"Your folk ain't as rich as ours. My father and mother go driving."

Alix has had only one fire in
twelve years.

Rev. O. Creighton has obtained
enough boy scouts to form
a patrol.

Dr. Mooney's is mentioned
as an aspirant for municipal
honors in Alix town council.

Mrs. A. C. Westhead, of Alix,
left last week to spend the winter
months in England.

J. W. Somers has purchased
the drug business in Tofield,
formerly run by Dr. Hammond.

A Ruthenian homesteader
living west of Leduc was accidentally
killed by a tree falling on him.

Over 60 gold placer claims
have been filed at the Red Deer
Land Office and many more are
expected.

The fur catch in the North-
west will be heavy this season,
one trader's pelts being worth
twelve thousand dollars.

Nearly ten thousand bushels
of grain were marketed in
Ryley in three days, the farmers
receiving over \$2,470 in cash.

Red Deer have reorganized
their hockey club and will endeavor
to form a league, comprising Lacombe, Wetaskiwin

G. P. Smith, of Camrose, re-

The Central Alberta exhibits
at the U. S. Land & Irrigation
exhibition at Chicago have
caused more attention than any
other exhibits so far. The
exhibits have proven to the people
that Central Alberta is a mixed
farming and dairy country, and
already the mail receipts at the
Edmonton office show a large
increase. In one day over one
hundred and twenty-five post
cards were received in Edmonton
requesting information as
to the possibilities of the country
from a settler's standpoint.

CONSERVATIVE VICTORY IN ONTARIO

The elections in Ontario last
Tuesday, resulted in Sir James
Whitney being returned to
power with a slightly reduced
majority. The standing of the
parties in the next legislature
will be 82 Conservatives, 23 Liberals,
and one Independent, which gives Whitney a majority
of 88 over his Liberal and
Independent opponents.

The most important issue in
the campaign was the question of
bilingual school but both
parties handled it with caution.

A gain was made by the
Liberals comprising the following
constituencies: Centre Elgin,
Middlesex, Mono, North Norfolk, South
Ontario, Prescott, Sturgeon
Falls, East Wellington and
North Wentworth.

The six Conservative gains
were made in the following
seats: East Ottawa, South
Perth, East Simcoe, Stormont,
West Wellington and in South
Wentworth.

The premier and the members
of his cabinet who went to the
polls were all returned by large
majorities. The total vote registered
during the day was light
compared with the vote polled
in other years.
